Westfall FFA sponsors electronics recycling drive

The Westfall FFA Chapter recently sponsored an electronics recycling drive. The drive collected computers, monitors, printers, and other electronic items which were then transported to a recycling station in Columbus.

The chapter conducted surveys of the community during a home football game and determined that many people would recycle their electronics but did not know where to take them. Additionally, the distance to a recycling station was a detriment for some community members.

The members decided that the recycling drive would be a good way to provide a community service. FFA members Austin Wippel and Garrett Musselman used a truck and horse trailer to take over 200 electronic items to the recycling station including many old computers, monitors, and printers.

The chapter would like to thank the community for their support of the recycling drive.
